Sudanese Journal  
of  
**PÆDIATRICS**

Volume 11 (No.2) - 2011

## The Cover

The Cover reflects part of Sudan civilization and shows scripts of the Meroitic Kingdom (800BC-350AD) which spread along the Nile Valley for a distance of more than 1000 km [<http://en.wikipedia.org/wiki/Mero%C3%AB>]. The Arabic script of the “*Sudanese Journal of Paediatrics*” reflects also the current main culture of Sudan. It was designed in 1984 at the Sudan University College of Fine Arts by Taha El Atta, PhD. A happy Sudanese baby is also shown reaching out, a gesture of a healthy future development.

**Cover design:** Vir Salvadore and Mustafa A Salih.
