

Welcome From President of S.A.P.

Dear honored guests:

Greetings & Salam

It is our great pleasure to welcome you to the 20th Conference of the Sudan Paediatric Association (SAP) which is held in conjunction with the second conference for the Sudanese Neonatology Society between 13th and 16th November 2015 at Friendship Hall , Khartoum , Sudan. Our theme this year is "Together against infection and malnutrition". The program is very rich with high profile lectures from key note speakers as well as very well organized. Pre-conference workshops on the 11th and 12th of November to be held at Soba Hospital on the south of the city. Workshops topics to be covered include: Tuberculosis /ICU care/ Epilepsy amongst other general paediatric topics. Neonatal workshops with the theme of the conference "Neonatology in Resource limited settings" will cover important topics e g Resuscitation /CPAP and other topics like Neonatal infection.

Our Social program includes a trip to our National as well as an afternoon Nile Cruise with lunch on board along the fascinating Nile River.

You will have a taste of the traditional Sudanese music on the opening ceremony as our board plays to the audience. We hope you enjoy our academic program and the social program and we wish you all a memorable visit to Sudan.

Yours Sincerely...

Prof. Eisa Osman El Amam
President of the Sudanese
Association of Paediatricians

Invitation from the scientific committee

On behalf of members of scientific committee & as a chairman, I would like to welcome you all to our 20th Sudanese association of paediatricians (SAP) conference & the 2nd neonatal society conference. The themes of this conference are: "Together to combat childhood infections & malnutrition" And "Neonatal services under limited resources " AS you know infectious diseases are very common among children in our country as the case in many developing counties. Still malnutrition is a major health problem in Sudan due to continuing threat of war, conflicts, displacement & poverty. We still lack the proper neonatal services & our morbidity & mortality figures are very high.

This conference is an opportunity for all of us to exchange scientific & medical information and experience between us and the outside world. Renounced international guest speakers from different countries will participate in this conference in presentations & workshops.

We will have six preconference workshops addressing very important childhood health problems like emergency paediatrics, tuberculosis, neurological diseases, malnutrition and neonatal problems.

We received many abstracts from local speakers & international guests. Psychiatrists, paediatric surgeons & nurses will contribute leading to useful interactions between different health personnel staff dealing with child health. The scientific program contains at least fifteen sessions & almost twelve plenary presentations.

Our great thanks are to guest speakers & Sudanese paediatricians in Saudi Arabia and United Kingdom for their active contribution to this activity. Lastly my deep thanks for all members of scientific committee for their patience and hard work until this program became a reality.

Before our thanks to our God for enabling us to make this conference a success.

Dr. Satti Abdelrahim Satti
Chairman of the scientific committee

The 2nd Conference of Sudan Society of Neonatologist**

Day One		PICU WORKSHOP	
		Dr. Baha eldin Hassan Ahmed	
TIME	TITLE	PRESENTER	
8-8:30am	INTRODUCTION AND REGISTRATION		
8:30-9	Modes of ventilation - paediatrics		
9-9:30	Non invasive ventilation CPAP, BIPAP		
9:30-10	Ventilation according to path physiology – paediatrics		
10-10:30	Blood gases interpretations and changing the ventilator settings		
10:30-11	Breakfast		
11-11:30	weaning and extubation		
11:30-12	complication and adverse effect of mechanical ventilation		
12-12:30	management of sudden collapse in ventilated child		
12:30-1	WORKSHOP1(GROUPS)		
	prayer & Tea break		
2-3:30	WORKSHOPS(GROUP)		
3:30-4	DISCUSSION AND FEEDBACK		

Day Two

<u>TIME</u>	<u>TITLE</u>	<u>PRESENTER</u>
<u>8-8:30</u>	Shock in PICU	
<u>8:30-9</u>	Anesthesia in PICU - sedation, analgesia and paralysis	
<u>9-9:30</u>	Monitoring head injury and management of intracranial hypertension	
<u>9:30-10:30</u>	post operative management	
<u>10:30-11</u>	<u>BREAK</u>	
<u>11-11:30</u>	Stuck on the ventilator, what happen next? Tracheotomy or withdrawal of support	
<u>11:30-1</u>	<u>WORKSHOP 2(GROUPS)</u>	
<u>1-1:30</u>	<u>FEEDBACK</u>	
<u>2-3</u>	Course closure and evaluation	

Demonstration Workshops

The following eight 30 minutes interactive workshops will run over both afternoons. Each delegate will rotate through every workshop over the two days, therefore completing 4 workshops per afternoon.

1. Pneumothorax and chest drain
2. Long lines, arterial lines and central lines
3. Paediatric conventional ventilators
4. Monitoring the ventilated child
5. CPAP ventilation
6. Stabilization and Transport incubators and ventilators
7. Scenarios in PICU
8. Airway NIV O2 delivery devices, (Oral and Nasal airway BMV,ETT- LMA,Tube fixation, Inline suctioning, Suctioning pressures, Intubation setup,)-

Nurses Work Shop

DAY 1

- 1/care for ventilated patient
- 2/CHEST PHYSIOTHERAPY
- 3/CARE FOR THE ETT
- 4/CARE AND BASIC SET UP OF THE VENTILATOR
- 5/SUCTION METHODS

DAY 2

- 1/ICU nurse privilege
- 2/Infections control
- 3/PAIN ASSESSMENT
- 4/common drugs calculations

REQUIRMENTS

- 1/LECTURE ROOM

Experience from Saleema Campaign against FGM in Sudan – as a doctor and Broadcaster	Dr. Mustafa Eltayeb	15 minutes
Closing session and a plan for the future	All	15 minutes

An aerial photograph of a large, rectangular building complex, identified as Friendship Hall in Khartoum, Sudan. The image is heavily overlaid with a bright yellow color, which is most intense at the top and fades towards the bottom. The building's structure, including its walls and internal courtyards, is visible through the semi-transparent yellow. The overall composition is centered, with the building occupying the middle and lower portions of the frame.
