## Theses for Higher Degrees

### M.D. THESES

Abbott P .H.	1954	Mycetorria. A clinical and Epidemiological Study, University of Cambridge.
Bates, J.D.	1959 - 1960	Tumours in Sudanese, University of Liverpool.
Beshir Hamad	1973	Some sociological and mental health studies in Khartoum University students, University of Khartoum.
Bryant, J.	1936	A description of investigations carried out in the Equatorial Province of the Anglo-Egyptian Sudan on a hitherto undescribed disease of the eyes now known as "Sudan Blindness", together with an account of the manifestations of <i>Onchocerca volvulus</i> (Leuckart, 1893), notes on the parasite and its relations to Sudan Blindness, University of Edinburgh.
Buchanan, R.N.	1935	On Schistosomiasis: a comparative study of the condition found in Berber Province Anglo-Egyptian Sudan, with reference to recent literature, University of Glasgow.
Cavanagh, P.	1966	The sensitivity to thiacetazone of <i>M tuberculosis</i> isolated in Britain, East Africa and the Sudan, University of Dublin.

**M.Sc. THESES**

Abdel Rahman Beshir Ahmed	1967	Chemistry of some plants of the Sudan of possible medical value, University of Khartoum.
Faisal Tag El Din	1962	Some aspects of the biology of <i>Leiurus quinquesteriatatus</i> , University of Khartoum.
Mahmoud Ahmed Mahdi	1963	Mortality of some species of fish to toxaphene at three temperatures, Iowa State University.

**M.PHARM. THESES**

Osman Hassan Osman	1966	The development of a method applicable to the Sudan for testing for pyrogen parenteral solution, University of Khartoum.
Salah El Din Mohamed Omer	1968	Studies on the dry-season biology of <i>Anopheles gambia</i> , University of Khartoum.
Yahia Mohamed El Kheir	1966	Investigation of certain plants used in Sudanese local medicine, University of Khartoum.

**M.S. THESES**

Ali Kambal	1968	Endemic goitre in Darfur Province, University of Khartoum.
